| September 1  | Paul Coen, Ph.D.                                                         | Exercise as an adjunct therapy for bariatric surgery patients
  Faculty Investigator; Translational Research Institute for Metabolism and Diabetes – Florida Hospital
  Adjunct Assistant Professor; Center For Metabolic Origins of Disease, Sanford Burnham Prebys Medical Discovery Institute at Lake Nona |
| September 15 | Chelsey S. Simmons, Ph.D.                                                | Mechanics of Matrix Remodeling across Muscle Systems
  Assistant Professor, Department of Mechanical & Aerospace Engineering
  Affiliate of Department of Biomedical Engineering
  Herbert Wertheim College of Engineering
  Division of Cardiovascular Medicine, College of Medicine, by courtesy University of Florida |
| October 6    | Canceled due to World Muscle Society                                     |                                                                                                                                         |
| October 26-Off Series; Co-sponsor: Pharmacology and Therapeutics | Dean Burkin, PhD
  Professor, Department of Pharmacology
  Director, CMPP Graduate Program
  University of Nevada, Reno | The Myomatriz Reloaded: Integrin and Extracellular Matrix Therapies for the Treatment of Muscular Dystrophy |
| November 3   | David Goldhamer, Ph.D.                                                   | Cells and signals that regulate heterotopic ossification of skeletal muscle
  Professor of Molecular and Cell Biology
  Associate Director, University of Connecticut Stem Cell Institute |
| November 17  | Michael Toth, Ph.D.                                                      | Muscle disuse as the facilitator of age - and disease - related muscle atrophy and weakness in humans? A simple answer to a complex question
  Associate Professor of Medicine
  University of Vermont College of Medicine |
| December 1   | Ahlke Heydemann, Ph.D.                                                   | Severe murine limb girdle muscular dystrophy type 2C pathology is diminished by FTY720 treatment
  Assistant Professor
  University of Illinois at Chicago |
| December 15  | A. Danny Martin, PT, PhD, FACSM                                          | Ventilator-induced diaphragm dysfunction in humans: activity interventions
  Professor, Department of Physical Therapy
  University of Florida |
